FARMS IN ILLINOIS.

900,000 ACRES

FARMING LANDS,

FOR SALE BY THE

Illinois Central Railroad Company, IN TRACTS TO SUIT PURCHASERS, AT LOW PRICES.

The Illinois Central Ballroad extends from Dunleith, in the north-western part of the State, to Cairo, in the extreme southern part, with a branch from Centralia, one himdred and thisteen miles north of Cairo, to Chicago, on the shore of Lake Michigan-altogether a length of 704 miles—and the land which is offered for sale is situated upon either side of the track, in no instance at a greater distance than fifteen unless.

The rapid development of Illinois, its stendy increase in population and wealth, and its capacity to preduce cheap food, are matters for wonder and admiration. The United Status Commissioner of Agriculture estimates the amounts of the principal crops of 1861, for the whole country, he follows: Indian corn, \$30,881,800 bushels; wheat, 100,695,813 bushels; cars, 170,600,761 bushels; of which the farms of flipcon yielded 128,256,125 bushels of lodian corn, 23,371,173 bushels; of wheat; and 26,273,751 bushels of outs—in reality more than one fourth of the corn, more than one with of the whent, and almost one seventh of the cats produced in all the United States.

Grain-Stock Raising. Pre-eminently the dest in the list of grain-experting States, Illinois is also the great cuits State of the Union. Its fortile prairies are well adapted by nature to the ruising of cuttle, sheep, horses and males; and in the important interest of pork packing, it is far in advance of every other State. The seeding of these prairie lands to take grasses for posturege or hay, offers to farmers with capital the most profitable results. The hay crop of Pilnois in 1864 is estimated at 2,166,705 tons, which is more than half a million tons larger than the crop of any other State, excepting only New York.

Cotton, Tobacco, Flax.

The entivation of tobacco and ection in southern lilinois has been largely simulated by the high prices which have prevailed since the outbreak of the rebellion. The crep of tobacco in this State, for 1884, is not down at 18,567,723 [be.: and while the returns from the cotton growing counties are incomplete, they are yet sufficient to show a large increase in the product—the most exertal calculation placing the increase at fifty per cent. Sorghum is now classed among the staples of Illinois. The making of sugar from the best is receiving some attention, and experiments upon a large scale will be made during the coming sesson. Hemp and that are grown in almost every part of the State, and of a quality equal to the best European.

Fruit. Almost all the fruits of the temperate infiltude are produced in Plinois. Peaches, pears, plums, straw berries, and every variety of garden tegetables, are produced as great abundance in the central and couthers districts of the State, and are aspelled to Chicago, Et. Louis and Cinemanti, the excellent railway facilities

Inducements to Settlers.

The extention of persons, whose limited means forbid the purchase of a homested in the older States, is particularly invited to these kinds. Within ten years the Hilmess Central Raticald Company has sold 1,400,000 cres, to more thus 20,000 actual settlers; and during the last year 281,422 scree—a larger aggregate of mice than in any one year since the opening of the road. The farms are sold in tracts of forty or eighty acres, selded to the settler with limited capital, or in larger tracts, as may be required by the capitalist and stock raiser. The soil is of unsurpassed feetility; the climate is healthy; taxes are low; churches and achoose are becoming abundant throughout the length and brendth of the State; and communication with all the great markets is made only through railroude, canale and rivers.

PRICES AND TERMS OF PAYMENT. The price of londs varies from 30 to 515 and upwards per acre, and they are sold on abort credit, or for A deduction of one per cent. from the credit price is made to those who purchase for costs.

EXAMPLE Forty acres of 510 per acre, on short credit, the percepti one-quarter cash dewn-balance one, two and three years, at ma per cent interest, madvance, took year.

Participated in two years, 100 to

The Same Land may be Purchased for 8360 Cash. Full information on all points, together with maps, showing the exact location of Lands, will be furnished on application, in person or by lotter, to
